System Performance by Household Type

Households with Days Homeless and Days Homeless by Household Type

Households that had at least one day in ES, SH, TH, or RRR; or at least one day in PSH prior to move-in and the average cumulative, unduplicated number of days that households were served in ES, SH, or TH projects; and days in RRR or PSH prior to move-in.

Exits by Household Type

Percent of households that exited to permanent destinations.

■ Permanent Destinations ■ Temporary + Unknown Destinations

Returns by Household Type

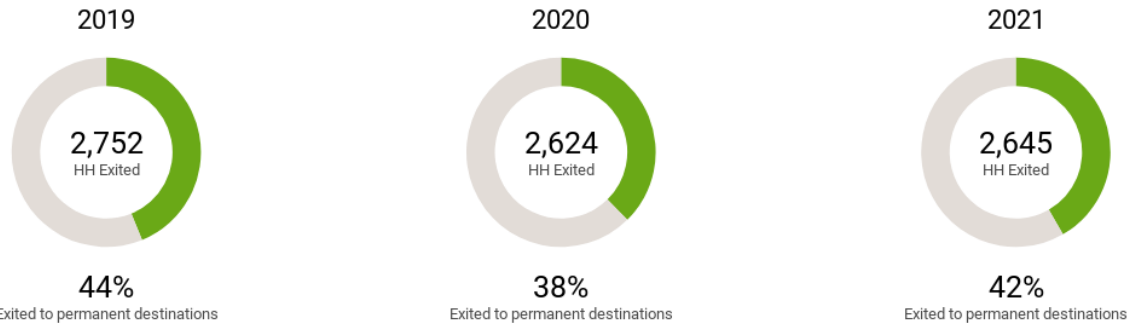

Percent of households that returned to the homeless system within six months of exiting to permanent destinations. The universe for the chart is households that exited within the first six months of the report period.

■ Permanent Destinations ■ Returns

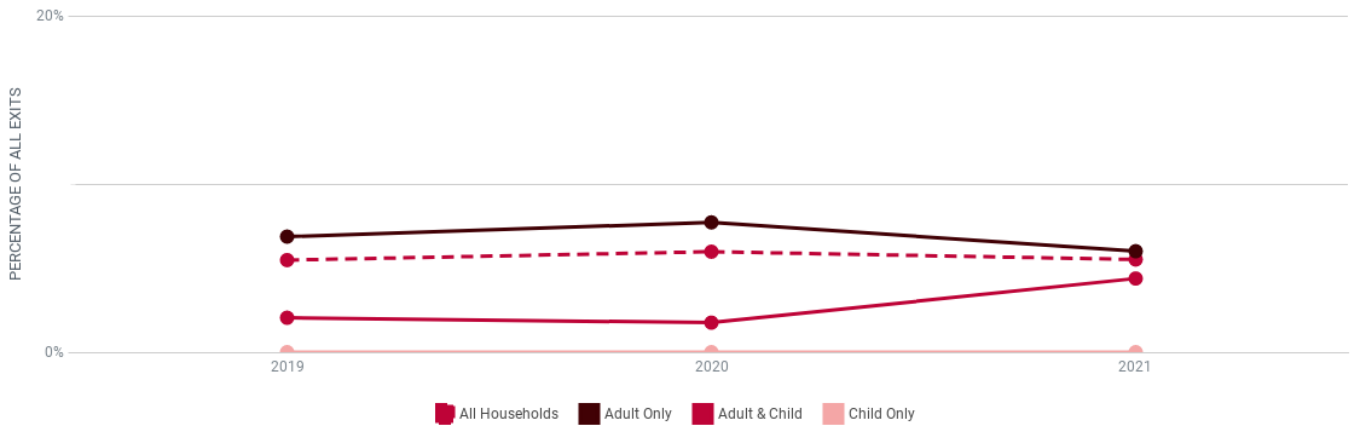

Exits to Permanent Destinations Trend

Number of households that exited from the homeless system and percent that exited to permanent destinations within each of the past three years.

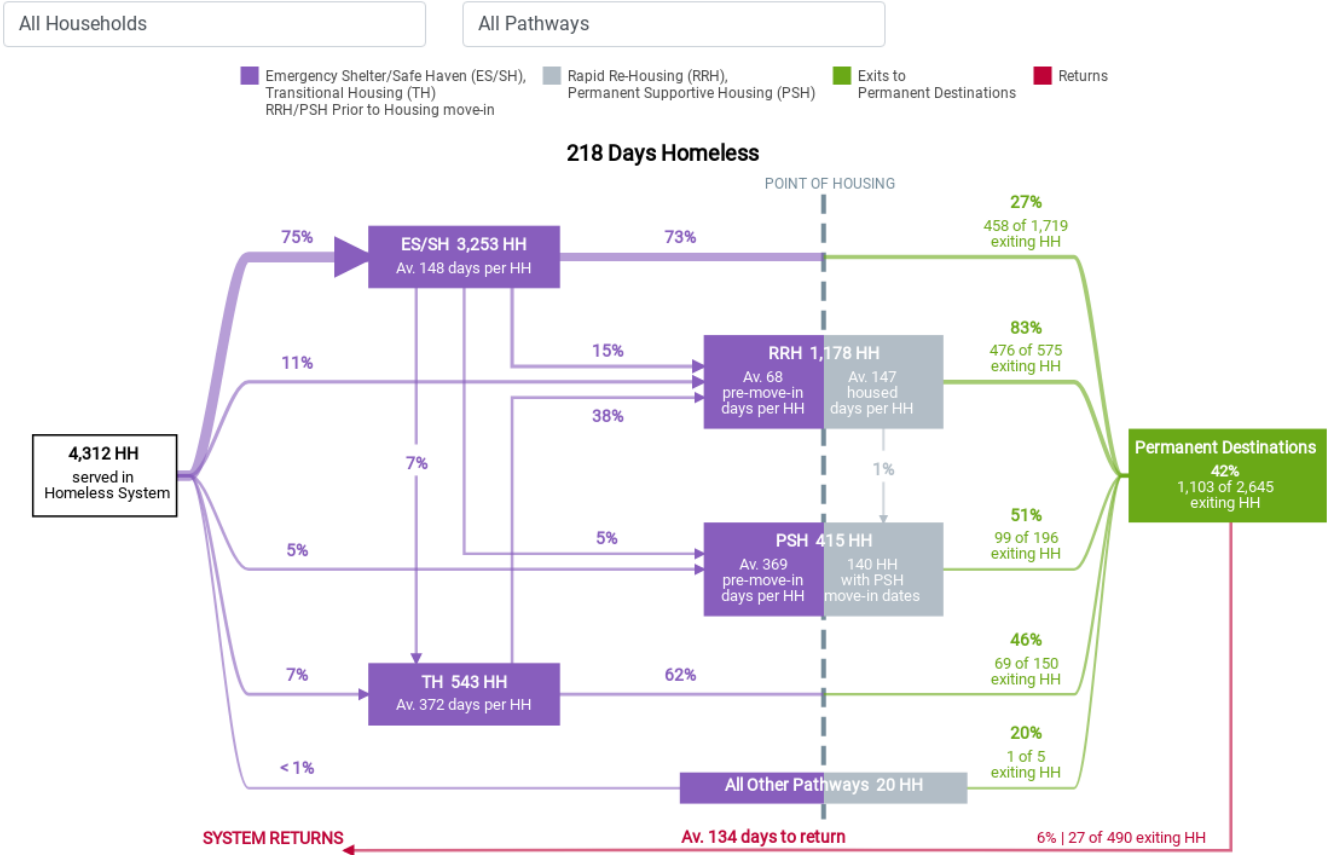

Returns to the Homeless System Trend

Percent of households that returned to the homeless system within six months of exiting to a permanent destination within each of the past three years. For the current report period, the universe for the chart is households that exited within the first six months of the report period.

System Performance Map

Households use different combinations of project types during the time they are served in the homeless system. These project type combinations are referred to as pathways. Each pathway has different average cumulative days homeless, exits to permanent housing and returns to the homeless system. The system map shows performance for the main project types in the homeless system and can be filtered to show performance for the main pathways.
